

src/include/rpp/sources
/error.hpp

```
graph BT; A[src/include/rpp/rpp.hpp] --> B[src/include/rpp/sources.hpp]; B --> C[src/include/rpp/sources/error.hpp];
```

The diagram illustrates a vertical stack of three header files. At the bottom is 'src/include/rpp/rpp.hpp'. An upward-pointing blue arrow connects it to the middle file, 'src/include/rpp/sources.hpp'. Another upward-pointing blue arrow connects the middle file to the top file, 'src/include/rpp/sources/error.hpp'. The top file's name is split across two lines within its box.

src/include/rpp/sources.hpp
