

src/include/rpp/sources
/error.hpp

```
graph BT; A[src/include/rpp/rpp.hpp] --> B[src/include/rpp/sources.hpp]; B --> C[src/include/rpp/sources/error.hpp];
```

The diagram illustrates a vertical hierarchy of header files. At the bottom is a box containing 'src/include/rpp/rpp.hpp'. An upward-pointing blue arrow connects it to a middle box containing 'src/include/rpp/sources.hpp'. Another upward-pointing blue arrow connects the middle box to the top box, which contains 'src/include/rpp/sources/error.hpp'. The top box has a gray background, while the others are white.

src/include/rpp/sources.hpp
